## AVOID FACTORY-INSTALLED ANODE-RELATED ISSUES

# 5 REASONS TO A ⚡ POWER

Upgrade to the new generation of anodes and avoid the downsides of sacrificial rods. Powered Anode Rods outperform sacrificial anode rods and help prevent common, costly problems.

## 01

KEEP YOUR TANK WARRANTY VALID

## NO MAINTENANCE. NO REPLACEMENT.

Sacrificial anodes require regular inspection and replacement. When maintenance is missed, premature failure is common. Corro-Protec provides long-lasting protection without any maintenance.

## 02

## TANKS FAILING TOO SOON?

Did your customer's last water heater fail in under 10 years? Corrosion and leaks are often the cause. Get continuous corrosion protection with our Powered Anode Rod and address the #1 reason for premature water heater failure.

EXTENDS TANK'S LIFESPAN

## MOST TANK MANUFACTURERS

REQUIRE ANODE ROD MAINTENANCE  
TO KEEP THE WARRANTY VALID.

### A.O. SMITH<sup>1</sup>

"[...] remove and inspect anode rod after first six months of operation and at least **annually** thereafter."

### BRADFORD WHITE<sup>1</sup>

"The anode rod should be inspected periodically (**every 2 years**) and replaced [...] to prolong tank life."

<sup>1</sup> A.O. Smith® and Bradford White® are registered trademarks of their respective owners. Corro-Protec is not affiliated with, endorsed by, or sponsored by any of these companies.

<sup>2</sup> Estimated savings after one year of installation, based on internal testing and independent sources. Results may vary depending on the water heater unit, water quality, and usage patterns. In Canada, the estimated savings are \$30 CAD.

# TO UPGRADE TO POWERED ANODE ROD

## 03

SAVES UP TO 10%

### LOWER ENERGY CONSUMPTION.

Water heating represents one of the largest energy loads in homes, accounting for nearly 20% of total energy consumption. By reducing scaling and sediment buildup, our powered anode rod saves up to US \$40 in energy costs each year.<sup>2</sup>

## 04

### WATER SOFTENER OR SULFUR SMELL?

Manufacturers note that softened water accelerates corrosion and anode consumption, which can trigger a sulfur smell. Corro-Protec delivers continuous corrosion protection and prevents odors.

## 05

OUR MODELS  
FIT ALL TANKS

### CUSTOMER WANTS YOUR BEST TANK.

If a customer is spending thousands on a new tank, they should also upgrade to the best protection. Even the best water heater needs the right technology to prevent corrosion, reduce sediment buildup, eliminate odors, and maintain efficiency.

Large, smooth-wall coils prevent lime and sediment buildup.

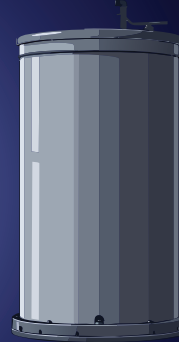

Connections available at the top of the tank to reduce excess piping.

Over two inches of insulation for minimal heat loss.

The last stainless steel water heater manufacturer in New England.

Finned Copper Tubing allows sediment to build up over time.

Connections on the sides of the units, increase the amount of piping. Which increasing installation costs.

“Up to two inches of insulation” really means “less than”.

Not Manufactured in the USA.

The difference is clear. Our team at Heat-flo takes pride in our products. Taking time to ensure we embody our motto by:

**RAISING THE STANDARD**

# We are redefining pipe rehabilitation

Not ready to buy?  
Rentals Available!

SIPP (Sprayed In Place Pipelining) casting system presents a cost-effective solution compared to European products. Through direct application of the resin, no need to use liners - No need for any reinstatements. Can be used through existing access points in the structure.

## We Offer the Best Training and Support in the Business

- 100% polyurea [No foaming]
- Chemical resistant
- ASTM tested, 60 sec cure time (compared to competitors 10 min. to 2 hrs.)
- 10 year warranty
- Long shelf life
- Made in USA
- High quality standard
- ISO 9001
- Easy to apply

Small Sprayhead  
1½" - 6"  
Pipe diameter

Large Sprayhead  
6" - 20"  
Pipe diameter

Equipment and resin made in USA, ready to ship today - no lead time.

# MADE TO WORK

Built to handle the hard jobs, day after day. Because downtime isn't an option.

## Model C Sectional Machine

Built for relentless root-cutting power and dependable performance, the original dual-cable Model C Sectional Drain Cleaner delivers unmatched cleaning strength for mainline jobs up to 200 feet. Its self-feeding dual-cable design, lightweight portability, and low-maintenance build keep you profitable in the field with virtually no downtime.

- Cleans up to 200 ft
- Self-feeding 1½" dual cables in 8' or 10' sections
- Standard ½ HP motor at 500 RPM for maximum cutting strength
- Sectional design prevents cable kinks and downtime
- Lightweight and easy to transport
- No handling of rotating cables
- Low maintenance with long service life

## EELvision ELITE Camera

Built for rugged reliability and engineered to keep you profitable with zero downtime, the EELvision ELITE Inspection Camera delivers dependable performance you can count on in the toughest conditions. Now backed by a **NEW 2-YEAR WARRANTY**, it features a revised and updated control board and delivers up to 4 times the battery life for even greater efficiency in the field.

- 200' of ½" diameter premium push rod
- On screen footage counter
- Continuous display odometer
- One-touch recording to USB and screen shot capability
- Built-in always on sonde
- Dual power sources – AC and battery
- Makita battery port (battery not included)
- Also accepts Milwaukee and Dewalt with provided adapter
