

**THE  
SHARK  
JUST  
GOT AN**

**EVEN  
STRONGER  
BITE.**

 **SharkBite Max™**

# The new SharkBite Max™ push-to-connect fitting has double the burst pressure and allows you to make pipe connections with half the insertion effort.\*\*

Featuring new, patented technology including a stainless steel retainer, SharkBite Max delivers additional strength and durability.

The re-engineered design means you can insert the pipe using less effort and it doesn't require a PEX tube liner. No soldering, clamps, unions, glue or special tools are required for installation.

It's the fastest way to connect PEX, copper, CPVC, PE-RT or HDPE pipe.\*

**2X THE BURST PRESSURE**

**1/2 THE INSERTION EFFORT**

**25 YEAR WARRANTY**

WHEN USED WITH PEX, COPPER, CPVC & PE-RT PIPE

**STAINLESS STEEL RETAINER FOR ADDED STRENGTH & DURABILITY**

**NO SPECIAL TOOLS, CRIMPING, SOLDERING OR GLUE REQUIRED**

**PATENTED SHARKBITE™ TECHNOLOGY**

**APPROVED FOR BEHIND-THE-WALL APPLICATIONS WITH NO ACCESS PANELS**

Comparisons in relation to 1st generation SharkBite.

SharkBite push-to-connect fittings are the fastest when compared to other conventional plumbing methods.\* All other comparisons relate to first generation SharkBite push-to-connect products.\*\*
